About the Authors

- **Martin Op 't Land** is Principal Consultant and Enterprise Architect at Capgemini and has over 16 years of experience in the field of enterprise architecture, mostly in the finance and public sectors. In addition, he is involved in research in the field of enterprise engineering and enterprise architecting. In line with his PhD thesis “Applying Architecture and Ontology to the Splitting and Allying of Enterprises,” his current research focuses on methods for organisation splitting, organisation allying and post-merger integration.
- **Erik Proper** is Principal Consultant at Capgemini and Professor in Information Systems at the Radboud University Nijmegen. He has a mixed industrial and academic background. His interests lie mainly in the field of conceptual modeling, enterprise modeling, enterprise engineering, and enterprise architecting. He was coinitiator of the ArchiMate project, and currently also serves on the board of the ArchiMate foundation as well as the Netherlands Architecture Forum (NAF).
- **Maarten Waage** is Enterprise Architect at Capgemini. He has over 10 years experience in creating and applying enterprise architecture, mostly in the context of complex business/IT transformations of large organizations (both profit and not-for-profit).
- **Jeroen Cloo** is Senior Consultant and Enterprise Architect at SeederDeBoer. After obtaining a bachelor degree in Technology Management, he started as an consultant over 10 years ago. In his career, he has been involved in multiple enterprise architecture engagements in different sectors. Jeroen obtained a master degree in Enterprise Architecture at the Radboud University Nijmegen.
- **Claudia Steghuis** is Senior Consultant at Capgemini with about 2 years of experience in enterprise architecture. Claudia obtained a master degree in Business information technology, discipline BIT Architecture at the University of Twente. Her MSc research focussed on service granularity within service oriented architecture. She was also involved in research conducted by the Netherlands Architecture Forum on the competencies of the architect.

Martin, Erik, and Maarten are also involved as lecturers in the post academic master program on Enterprise Architecture offered by the Radboud University Nijmegen and Capgemini.
